### SUMMARY

I am a Full Stack Developer experienced in JavaScript, React, Redux, nodejs, Python based programming with a background in Business and Development. I'm a quick learner, good listener, self-driven, well-structured, and enjoy collaboration.

### TECHNICAL SKILLS

HTML, CSS, Javascript, React, nodejs, Python, Flask, SQL, Sequelize

### TECHNICAL PROJECTS

**Find A Minyan** - website to come soon <https://findyourminyan.herokuapp.com/> | [Github](#)

I created a web-application to help a user find a minyan (prayer group). My app is based in a few cities but will eventually be global.

My project includes:

- Next available minyan times in each synagogue according to current time.
- A registered user has the ability to create a schedule for a synagogue and have that data uploaded to a database.

**Final Project- My Burger** - [My-Burger](#) | [Github](#)

I created a web-application using Flask for a restaurant, where a user can simply purchase delicious food.

My project includes:

- A login feature using different packages and have all their data saved in a database.
- Email verification after an order has been placed to confirm order.
- A seamless user interface, the images are clean and consistent to create a user friendly experience to help increase returning customers

### EXPERIENCE

#### Marketing Research Internship

Hometalk

Jerusalem, Israel

01/2018 - 06/2018

- We conducted a research analysis on many of Hometalk competitors based on different business Models.
- We also researched on different ways to increase their revenue, we conducted a detailed, clear and to the point survey which was sent out to over 300 Hometalk Users giving Hometalk an accurate area to invest the time and efforts.
